DEMOCRATIC STATE CONVEN-TION.

JACKSON, April 25, 1868. At a meeting of the Executive State Com mittee, held this day, it was Resolved, That the Democratic State Convention be re-assembled at Jackson, on TUESDAY, THE 12TH DAY OF MAY,

Questions of great magnitude to the people will be submitted to the Convention, and a full representation from every county in the State is urgently requested.

By order of the Committee,

JOHN D. FREEMAN, Chairman.

Nothing exceeds the impudence of the charge which the carpet-bag vagrants who kept out of harm's way while the war was raging, that Gens. Hancock, Ewing, Blair and other distinguished soldiers of the Union army, are not "loyal" to the Union because they have refused to countenance the unconstitutional measures of the Radical Congress.

Mr. Leflore, independent Republican candidate for Congress, in the 3rd District, publishes a letter denouncing the offices which they propose to cre ate. Does not Mr. Leflore know that the sole purpose of the mendicants is to obtain the offices, and that to divide them with "natives" of his class, notwithstanding their Republican orthodoxey, would be in contravention of their creed? Let Mr. Leflore convince the knaves that there is no chance for the election of a carpet-bagger over a decent white man, in his District, and they will give him the nomination, and boast of their liberalty, as in the case of Maj. Wofford in the 1st District.

Sheriff. The grounds of his removal. approve. are known to our citizens to be wholly untenable. To require him or his assistants to have been present on the occasion of every disturbance which passionate men may have become engaged in, was to require the performsprung up unexpectedly, his deputies following spirited sketch of him: were promptly on the ground, and interposed to preserve order. bate between Messrs. Fields and since informed that the occasion of the strong language used by the former in reply to the latter, was misapnot the language. The following has been furnished, as setting forth the real point at issue:

property qualification for Senators, among other reasons assigned, was the fact that, as a majority of voters, under any Constitution | cal teachings : the Convention was likely to adopt, would be ignorant and vicious, it was highly proper, with a view to the security of proper one of the ends for which civil government is instituted—that there should be a check somewhere to licentious legislation, so as to assure its possessors against spolia-tion under the forms of law, and that by giving those who are pecuniarily interested a virtual veto upon such abuse of power, it would tend to the greater prosperity of the cess to the sleeping apartment of country, by stimulating industry when it felt secure that the property resulting there from was made safe, and it would also give assurance to capitalists who might desire to settle among us, or make investments here. the subsequent results. less reluctant to do so.

It was said of the colored people in the same connection, that though generally they were very ignerant, and like other races, commensurately vicious, yet less evil was to dier sentenced to be executed by hangbe apprehended from them than any other, ing. But the General interfered, and owing to their acknowledged docility and the sentence suspended, but it is cur-

An entire misapprehension of the above remarks led a member to say that the colored race was charged with being savages and canibals. This was disavowed at the time by Mr. Fields, coupled with the assertion that nothing had ever been uttered by the speaker, at any period of his life, more derogatory to one race of man than another; yet the member named in your notice, Mr. Gibbs, reiterated the charge above named, and it was to this the reply of "lie" was given, and not to the charge of holding many offices, though this is also untrue.

The Lexington, (Ky.,) Gazette con tains the following item, which will

be interesting to poultry raisers: the disease prevailing among the poultry in this section is an affection of the liver, and that it must be treated accordingly. He advises forty grains of calomel to a half gallon or meal twice a week, to fifty or sixty fouls .-Since he has pursued this treatment he has lost none.'

We are satisfied, from experiment, that calomel will be found very effective in preventing and curing the diseases which kill so many chickens.

Perplexity of the Radical

There is trouble among the Radical eaders at Washington. The Southern mendicant agents of their party in go ing beyond the laws of Congress in the matter of proscription, have brought them in contact with troublesome issues. To refuse to admit the excluded States, is to lose their coveted votes in the electoral college. To ad mit them with constitutions disfranchising from one-half to two-thirds of the white people of the South, including vast numbers of original Union men, they plainly see will increase the popular fury against them in the Northern States.

In this perplexity, they are introducing bills to revise the Black and Tan Constitutions so as to make them accord with the Congressional acts. which, of themselves, are so odious that they are breaking the back of the Radical party.

In Virginia, Gen. Schofield told the architects of negro governments plainly, that they were over-shooting the mark, and could not carry their programme into operation. This ad vice was lost upon his Black and Tan auditors; they took it in high offence, and the consequence is, that his speech has been followed up by an order postponing the election on the ques tion of ratification, upon the pretext the carpet-baggers for monopolizing that Congress has made no appropriation to pay the expenses of the same It is singular that this obstacle does not stand in the way of elections in the other States which are attempted to

be brought under carpet-bag rule. To throw some light on the tendency of events at Washington in view of this predicament of the Radical leaders, we copy the following special despatch to the St. Louis Democrat. (Radical)

The Corinth News had declared in favor of ratifying the Constitution which is in process of formation by the Military Convention, and had fairly entered the lists as a champion of that policy. But in its issue of the 25th, it formally renounces that course, in view of the vindictive and sweeping disfranchising measures of the Convention. As the proposed law now stands, every man who held any military or civil office in the Confederate service, no matter how humble the office, or what may have been his anvouchsafe to the private seldierthe privilege of holding office; but they at the same time tell him that he shall not vote for his Lieutenant, Captain, Colonel, or other army. So much for carpet-bag statesthe virtue and intelligence of the soldiers. As the measure originally stood, it was an injury. As it it now stands, an insult is susperadded which

We are gratified by the frank utterances of our News cotemporary. The truth is, the Radicals have gone so immeasurably beyond the original plan of Congress, and that body itself has played so falsely with the Southern people-their plan is so clearly a scheme to establish African rule over the destruction of the welfare of both races, in order that they may feed upon the spoils-so clearly a measure to introduce the horrible creed of amalgamation into the political and social can't look an honest and intelligent white man mixed schools, mixed militia, mixed or negro, should look them in the face with jurors, and mixed legislatures -- that it is exciting the mingled horror and loathing of every decent man within number of as unprincipled, perjured and deits limits. The News, with these manifestations of Radical degradation, instinctively takes its position in the Conservative ranks:

R. R. Great Sensation!- A Goo! Sensation!

PAIN CURED IN AN INSTANT. In 1847 the great grand principle-of stop-

without employing such dangerous agents, as Chloroform, Opicm, Morphine, Acontine Ether, etc., was first made known in Radways Ready Relief.

This remedy accomplished this wonde ful ternal and internal pain. In an instant it afforded relief, the moment it was applied to the parts of the body, where the inflamation of pain existed—it at once relieved the patient of the most violent and exerutiating pangs and throbs of pain, and imparted the delightful sensation of ease and comfort.

Every kind of pain, whether Rheumatism, Neuralgie, Toothache, Pains in the Chest, Side, Lungs, Stomach, Bowels, Kidneys, Spine, Legs, Arms, Feet, one application was suffi-cient to exterminate the pain. Taken internally, 20 drops to a teas; conful would cure and will cure Asiatic Cholera, Fever and Ague, Chills and Fever, Bilious Cholic, Inflamation of the Bowels, Cramps, Spasms Diarrhea, Dyssentery, and every pain that may exist in the inside of man, woman or

child; this was Rudway's Ready Relief of 1847, and it is Radways Ready Relief, greatly improved in 1868. We then started it in its mission of relieving the infirm, pain-stricken, sick, distress d and crippled of all nations throughout the world,

bruises, accidents, and to relieve the soldiers
